American Foundation For Children With AIDS, Inc.
Harrisburg, Pennsylvania

Report on the Financial Statements

We have audited the accompanying financial statements of American Foundation For Children With AIDS, Inc. (a nonprofit organization), which comprise the statements of financial position as of December 31, 2018 and 2017, and the related statements of activities, functional expenses, and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Members of the American and Pennsylvania Institutes of CPAs

Notes to Financial Statements

For the Years Ended December 31, 2018 and 2017

NOTE 1 NATURE OF ACTIVITIES AND SIGNIFICANT ACCOUNTING POLICIES

Nature of Activities:

The American Foundation For Children With AIDS, Inc. (the Organization) is a nonprofit corporation founded March 23, 2004 whose mission is to help HIV+/AIDS children and their guardians in sub-Saharan Africa who have no other access to aid. The Organization provides medical equipment and supplies, nutritional supplements, educational support, and emergency supplies that are requested by the institutions in its targeted areas. The Organization solicits funds for its endeavors.

In 2007, the Organization became the pass-through entity for 501(c)(3) donations for St. Mary's Mission Hospital in Nairobi and Elementita, Kenya. The amounts collected and not distributed at the end of the year by the Organization are recorded as a liability on the Statements of Financial Position.

In 2015, the Organization became the pass-through entity for 501(c)(3) donations for Himalayan Guge Organization in Kathmandu, Nepal. The amounts collected and not distributed at the end of the year by the Organization are recorded as a liability on the Statements of Financial Position.

Basis of Accounting:

The financial statements of the Organization have been prepared on the accrual basis of accounting and, accordingly, reflect all significant receivables, payables, and other liabilities.

Basis of Presentation:

Financial statement presentation follows the *Not-for-Profit Entities* topic of the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) which requires the Organization to report information regarding its financial position and activities according to two classes of net assets: net assets without donor restrictions and net assets with donor restrictions.

Contributions:

Contributions received are recorded as increases in net assets with and without donor restrictions, depending on the existence and/or nature of any donor restrictions.

All donor-restricted contributions are reported as increases in net assets with donor restrictions, depending on the nature of the restriction. When a restriction expires (that is, when a stipulated time restriction ends or purpose restriction is accomplished), net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the Statements of Activities as net assets released from restrictions.

Cash and Cash Equivalents:

For the purpose of the Statements of Cash Flows, the Organization considers all highly liquid investments with a maturity of three months or less when purchased to be cash and cash equivalents.

Investments:

Investments are valued at fair market value on a recurring basis in the Statements of Financial Position.

Fair Value Reporting requires an establishment of a hierarchy that ranks the quality and reliability of inputs, or assumptions, used in the determination of fair value and requires financial assets and liabilities carried at fair value to be classified and disclosed in one of the following three categories:

AMERICAN FOUNDATION FOR CHILDREN WITH AIDS, INC.

Notes to Financial Statements

For the Years Ended December 31, 2018 and 2017

NOTE 1 NATURE OF ACTIVITIES AND SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investments (Continued):

- Level 1 – Quoted prices in active markets for identical assets and liabilities
- Level 2 – Directly or indirectly observable inputs other than Level 1 quoted prices
- Level 3 – Unobservable inputs not corroborated by market data

For investments that have quoted market prices in active markets, the Organization uses the quoted market prices as fair values and includes those investments in Level 1 of the fair value hierarchy. When quoted market prices in active markets are not available, various pricing services are used to determine fair value of investments that are included in Level 2 of the fair value hierarchy. Level 3 represents financial assets whose fair value is determined based upon inputs that are unobservable and include the Organization's own determinations of the assumptions that a market participant would use in pricing the asset. The Organization considers its investments Level 1.

Investment income, including realized and unrealized gains restricted by donors, is reported as an increase in net assets without donor restrictions if the restrictions are met (either a stipulated time period or a purpose restriction is accomplished) in the reporting period in which the income and gains are recognized.

Investments are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible changes in risks in the near term would materially affect investment assets reported in the Statements of Financial Position and the Statements of Activities.

Accounts Receivable:

Accounts receivable consist of amounts due from various customers. Bad debts are accounted for by the allowance method, which establishes an allowance for doubtful accounts based upon historical losses and a review of past due accounts.

Fixed Assets:

It is the policy of the Organization to record purchased fixed assets at cost and donated fixed assets at their fair value at the date of donation. Depreciation is computed using the straight-line method over the estimated useful lives of the assets.

During 2014, the Organization modified its capitalization policy to be in compliance with new tangible property regulations.

New acquisitions of fixed assets having a low acquisition cost, or which are not expected to last for more than a year, are expensed in the year of acquisition. Repairs and maintenance charges are capitalized and depreciated when they materially extend the useful life of the related assets. There were no fixed assets at December 31, 2018 and 2017.

Contributed Services:

Many individuals volunteer their time and perform a variety of tasks that assist the Organization. These services are not recorded as contributed services since they do not meet the criteria for recognition. The Organization receives more than 5,000 volunteer hours per year.

AMERICAN FOUNDATION FOR CHILDREN WITH AIDS, INC.

Notes to Financial Statements

For the Years Ended December 31, 2018 and 2017

NOTE 1 NATURE OF ACTIVITIES AND SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Inventory:

The Organization accepts contributions of medical supplies and other necessities. These contributions are recorded as inventory and contribution revenue at estimated fair value at the date received, taking into consideration inventory condition and utility for use. All donated inventory is received from corporations or other private donors and is considered to be unrestricted support unless the inventory explicitly contains donor restrictions. The Organization only records the value of donated inventory in which they were either the original recipient of the gift, were involved in partnership with another organization for distribution internationally, or used in the Organization's programs. The Organization determines estimated fair value in accordance with fair value measurement accounting standards. In general, the Organization values donated items at its estimated fair value based on researched cost of the items, when cost information is available. When cost information is not available, items are valued by weight using a conservative value per pound. The Organization donates the inventory to medical providers in sub-Saharan Africa on an as-needed basis, at which time the donation is reflected as an expense.

Functional Allocation of Expenses:

The cost of providing the various programs and activities has been summarized on a functional basis in the Statements of Activities. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

Taxation:

The Organization is exempt from federal income tax as provided by Code Section 501(c)(3) of the Internal Revenue Code. Donors are entitled to deductions for federal income tax purposes for contributions made to the Organization in accordance with the Internal Revenue Code. Accordingly, no income tax is incurred unless the Organization earns income considered to be unrelated business income. The Organization conducted no activities which were subject to income taxes.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Organization, including whether the entity is exempt from income taxes. Management evaluated the tax positions taken and concluded that the Organization had taken no uncertain tax positions that require recognition or disclosure in the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Organization is no longer subject to income tax examinations by the U.S. federal, state or local tax authorities for years before December 31, 2015.

Use of Estimates:

The preparation of financial statements in conformity with the accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTE 2 ADOPTION OF NEW ACCOUNTING PRONOUNCEMENT

During August 2016, FASB issued ASU No. 2016-14, *Not-for-Profit Entities (Topic 958): Presentation of Financial Statements of Not-for-Profit Entities*. The new guidance is intended to improve and simplify the current net asset classification requirements and information presented in financial statements and notes in order to be useful in assessing a not-for-profit's liquidity, financial performance, and cash flows. This includes changing the presentation of functional expenses and net assets. ASU No. 2016-14 is effective for fiscal years beginning after December 15, 2017, with early adoption permitted. ASU No. 2016-14 is to be applied retroactively with transition provisions. The Organization is implementing this standard for the year ended December 31, 2018.

ASU No. 2016-02 is effective for annual periods beginning after December 15, 2019. The Organization is currently assessing the impact this standard will have on its financial statements.

NOTE 10 CONCENTRATIONS CREDIT RISK

Financial instruments that potentially subject the Organization to concentrations of credit risk consist principally of cash and cash equivalents held with financial institutions. The Organization may have exceeded this threshold from time to time throughout the year. There were no amounts in excess of the FDIC limit at December 31, 2018 and 2017.

NOTE 12 NET ASSET RECLASSIFICATION

During 2018, management determined that \$12,726 which was previously reported as net assets without donor restrictions should have been reported as net assets with donor restrictions at December 31, 2017. These changes are reflected on the Statements of Activities as an adjustment to the beginning balances of net assets without and with donor restrictions.

NOTE 13 SUBSEQUENT EVENTS

Subsequent events have been evaluated through March 14, 2019, which is the date the financial statements were available to be issued.
